

HOME PREP CHECKLIST

Sell faster and look better

Use this 1 to 2 weeks before photos and showings. Check off what applies; skip the rest. Small edits photograph big.

Curb and entry

Sweep porch, walk, and driveway. Hide bins and hoses. Clean front door glass; polish hardware. Replace dead plants; one simple planter helps.

Light and air

Open blinds; clean windows inside (outside if you can). Replace dead bulbs; same warm-white temp everywhere. Turn on every lamp for photos, even daytime.

Declutter and depersonalize

Clear counters to one accent plus essentials. Pack family photos, fridge magnets, and diplomas. Thin closets about 30 percent so rooms read spacious.

Quick repairs

Patch nail holes; touch up scuffs. Fix drips, loose handles, squeaky doors. Re-caulk tub or kitchen seams if yellowed.

Kitchen and baths (photo priority)

Empty sink; stash sponges under sink on shoot day. Fresh neutral towels, folded evenly. Toilet lids down; empty trash with a new liner.

Rooms and flow

Clear walking paths; remove one bulky piece if a room feels tight. Simple bedding; pillows stacked cleanly. Straighten rugs; tuck cables.

Odors and HVAC

Change HVAC filter; deep clean if pets or heavy cooking. Avoid strong perfumes. Refresh litter areas or relocate for showings.

Photo and showing day

Lights on; fans off unless needed for comfort. Chargers, toiletries, and pet bowls out of frame. One simple floral or bowl of citrus is enough.

When in doubt

Book a staging walkthrough or listing prep consult. A trained eye catches what the camera will magnify.
